

This is the the screen that would show when the game is opened

If the “press to play” font can be highlighted into red color when you scroll over, that’d kick ass

this is the game play screen

for start-up dildo snake: head, body, and balls
everytime the dollar sign is eaten, ‘body’ grows

when player dies, this screen shows.

if the entire text box can be highlighted into red and linked to hojaekim.com, that'd b rad
